Future Of Feminism 2.0	Ash Knowles They/Them/Their			Proposed description: After a successful and engaging conversation last year, The Future of Feminism in a Nonbinary Generation is back! While there are many types of modern feminism, the popular (dictionary) definition remains "the social, political, and economic equality of the sexes." The binary division of the sexes has long been an oppressive force to women, queer, and gender nonconforming people, yet it is still upheld as the key to overcoming this oppression. Together, we will delve deeper into the roots of gender ideology to undermine the binary that separates the sexes in the first place. This interactive panel includes a history of nonbinary genders, gender theory, and the impact they have on modern feminism. Together we will consider how the current goals of feminism shift when the gender binary is dismantled by theory and	10:55 AM-12:00 PM	Ash is a student at UVU just finishing their bachelor's degree in Theatre Arts and Gender Studies. After coming out as nonbinary in 2014, it has been their obsession to learn everything they can about gender theory, not only to understand themselves better, but also to be a better, more effective, and inclusive activist. They have presented at a handful of academic conferences on the topic at UVU, and last year culminated all their efforts into their first GenderEvolution panel. This year they want to continue the conversation with you!
